

THIS CIRCULAR SHOULD BE IN THE HANDS OF

ALL BASS DRUMMERS.

REED'S ANTI-CREEP

FITS ANY BASS DRUM.

It keeps the Bass Drum from getting away from you. That's how you "get your money's worth." Can be attached to or removed from the Drum in an instant. It is not necessary, however, to remove the Anti-Creep from the Drum, as there are rings on it to attach the Drum strap to when marching

504 E. 89th St. New York, June 25th, 1899.

Mr. Chas. G. Reed, Esq.,

Dear Sir:—The Anti-Creep which you manufactured for me is the "real thing." I have shown the same to my fellow drummers and use the same constantly at our Manhattan Beach engagement. * * * I remain,

Yours, H. P. FORSTER.

Bass Drummer with Sousa and this Band.

From the Great Trombone Soloist, F. N. Innes.

Woodside Park, Philadelphia, Pa., June 5, 1899.

Mr. Chas. G. Reed,

My Dear Sir:—I have great pleasure in testifying to the merits of your Anti-Creep for the Bass Drum. The device is a practicable one and will, I think, be eagerly welcomed by the Bass Drum players in Bands. Respectfully yours, F. N. INNES.

From the Drummer with Phinney's U. S. Band.

Chicago, Ill., June 7, 1899.

Mr. Chas. E. Reed,

Dear Sir:—Having used your Anti-Creep can say it is an excellent invention for Drummers and meets all the requirements.

Lynn, Mass., May 22, 1899.

Mr. Chas. G. Reed,

Dear Sir:—The Anti-Creep has arrived. * * * I can truthfully state that it is the very best arrangement that I have ever seen to keep the bass drum from "creeping" away from the band during a concert, as the tendency is for all bass drums to "get away" unless fastened to the floor or some other device. * * *

Yours very truly, NELLIE MILES,

Director Miles' Military Band, (all men.) Lynn, Mass.
